I have an

Announcement!

My family
is having
a new

Baby!

Our baby isn't born yet,

but we already
take good

Care
of him.

I help Mommy eat
a good, healthy

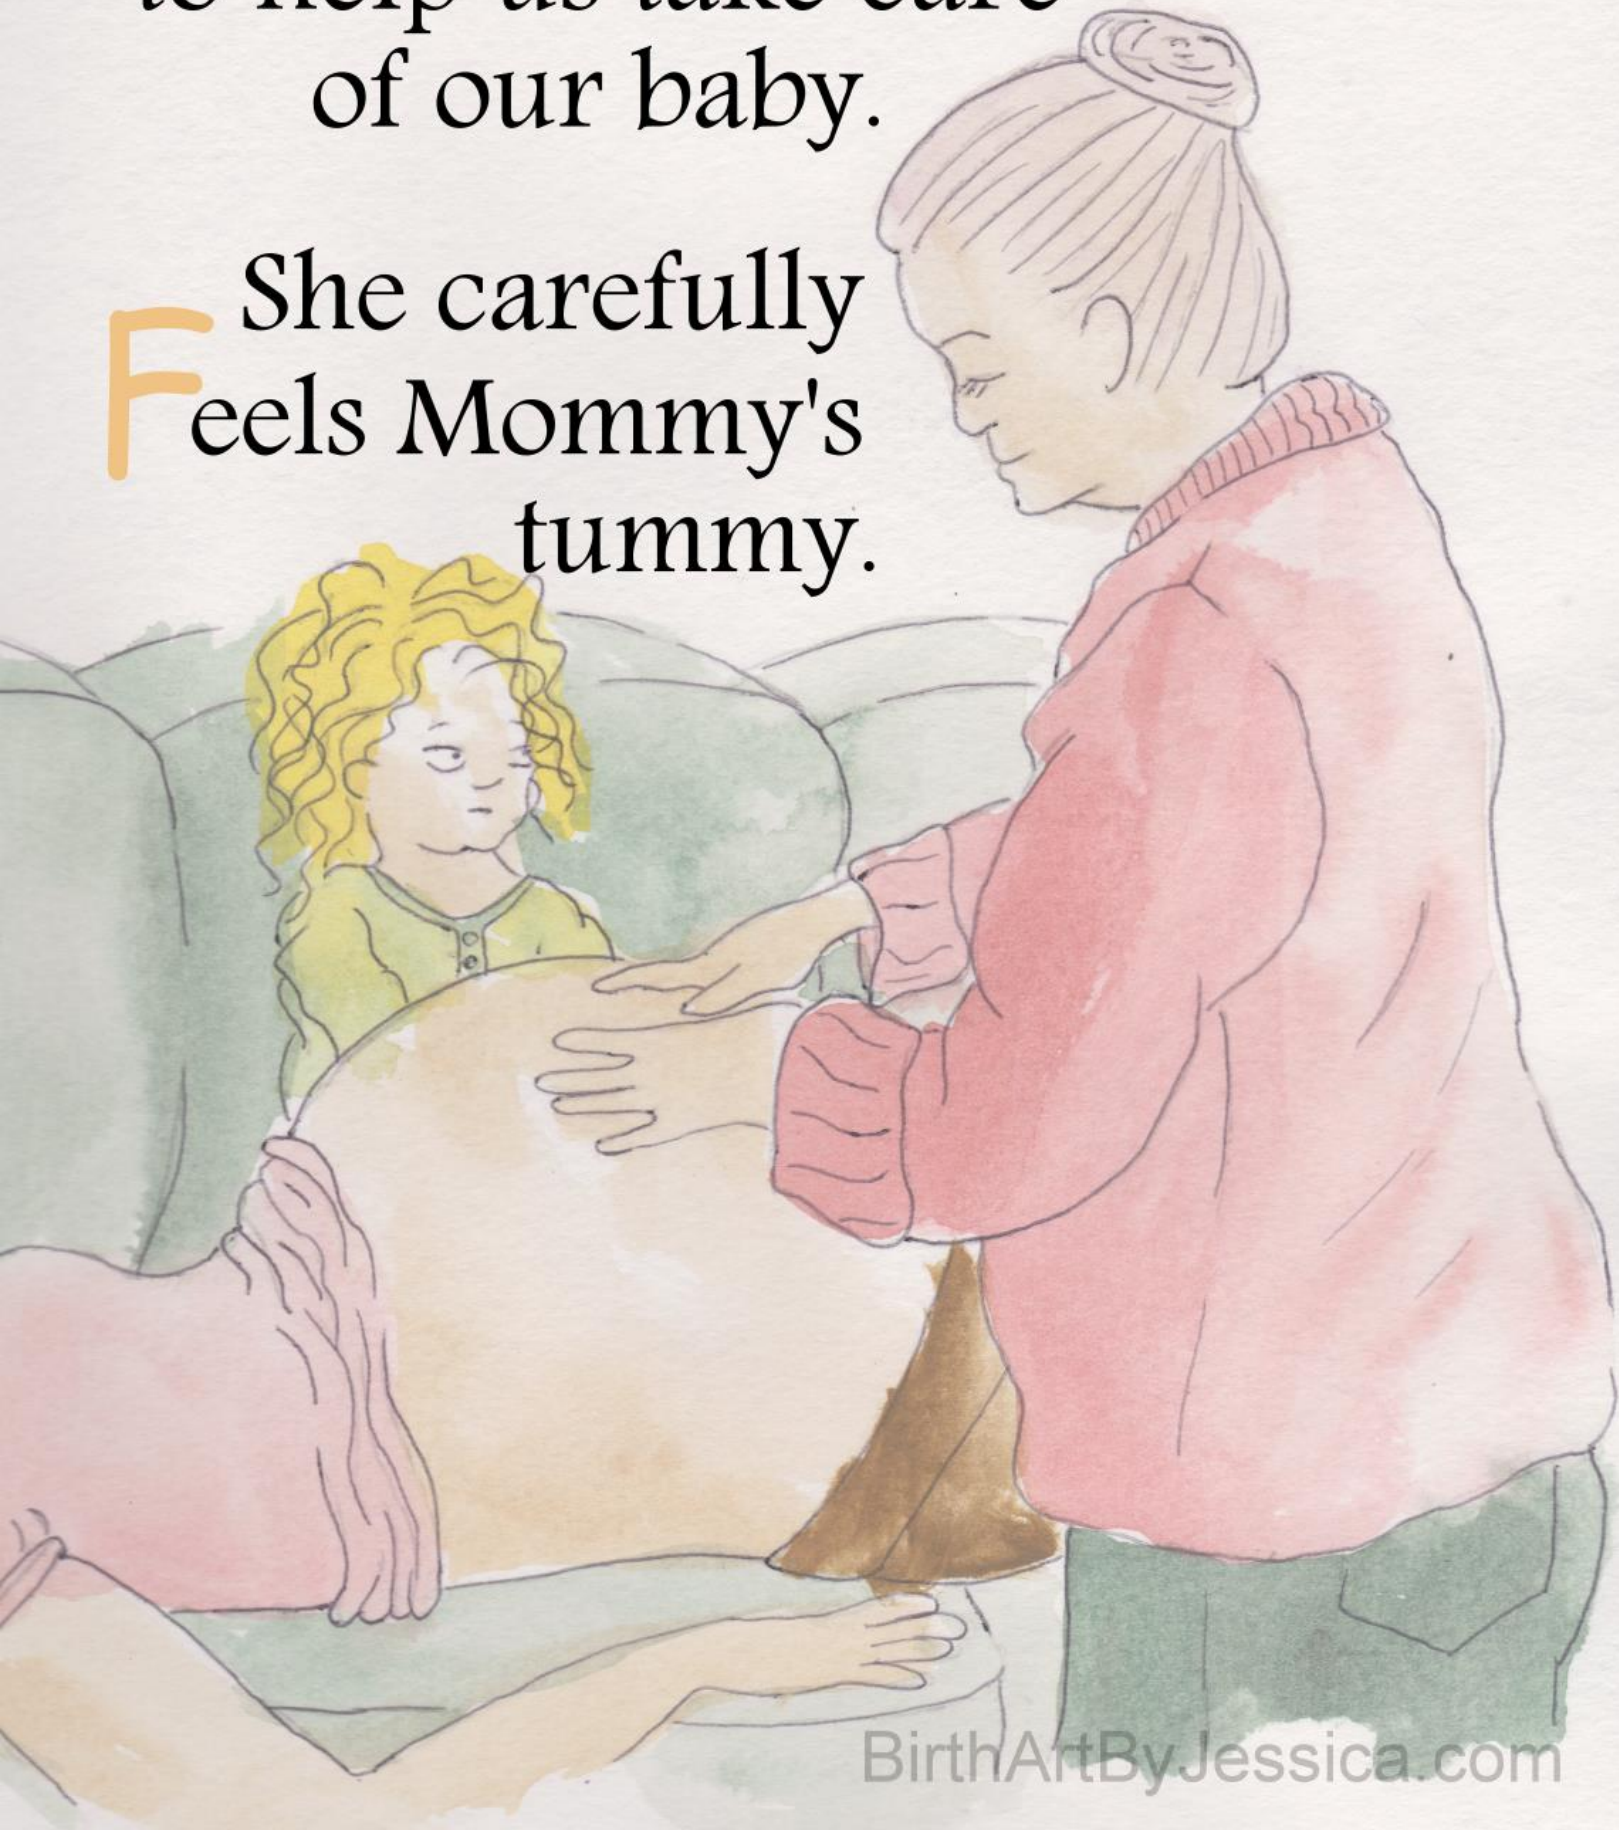

Diet.

I help
Mommy
get lots of
Exercise.

We have a midwife
to help us take care
of our baby.

She carefully
Feels Mommy's
tummy.

She measures how much
our baby is **G**rowing.

She listens to baby's

Hearbeat.

Our baby grows big and strong
Inside Mommy.

I like to feel baby
Jumping and
Kicking!

When baby is big enough,
Mommy's body starts working
to bring baby out.

This
work
is
called
Labor

We call
the
Midwife
to
come
help
Mommy.

Now Mommy
makes lots
of funny
Noises!

Her
noises help
her body
Open
and
Push
baby out.

Sometimes Mommy's
noises are very **Q**uiet...

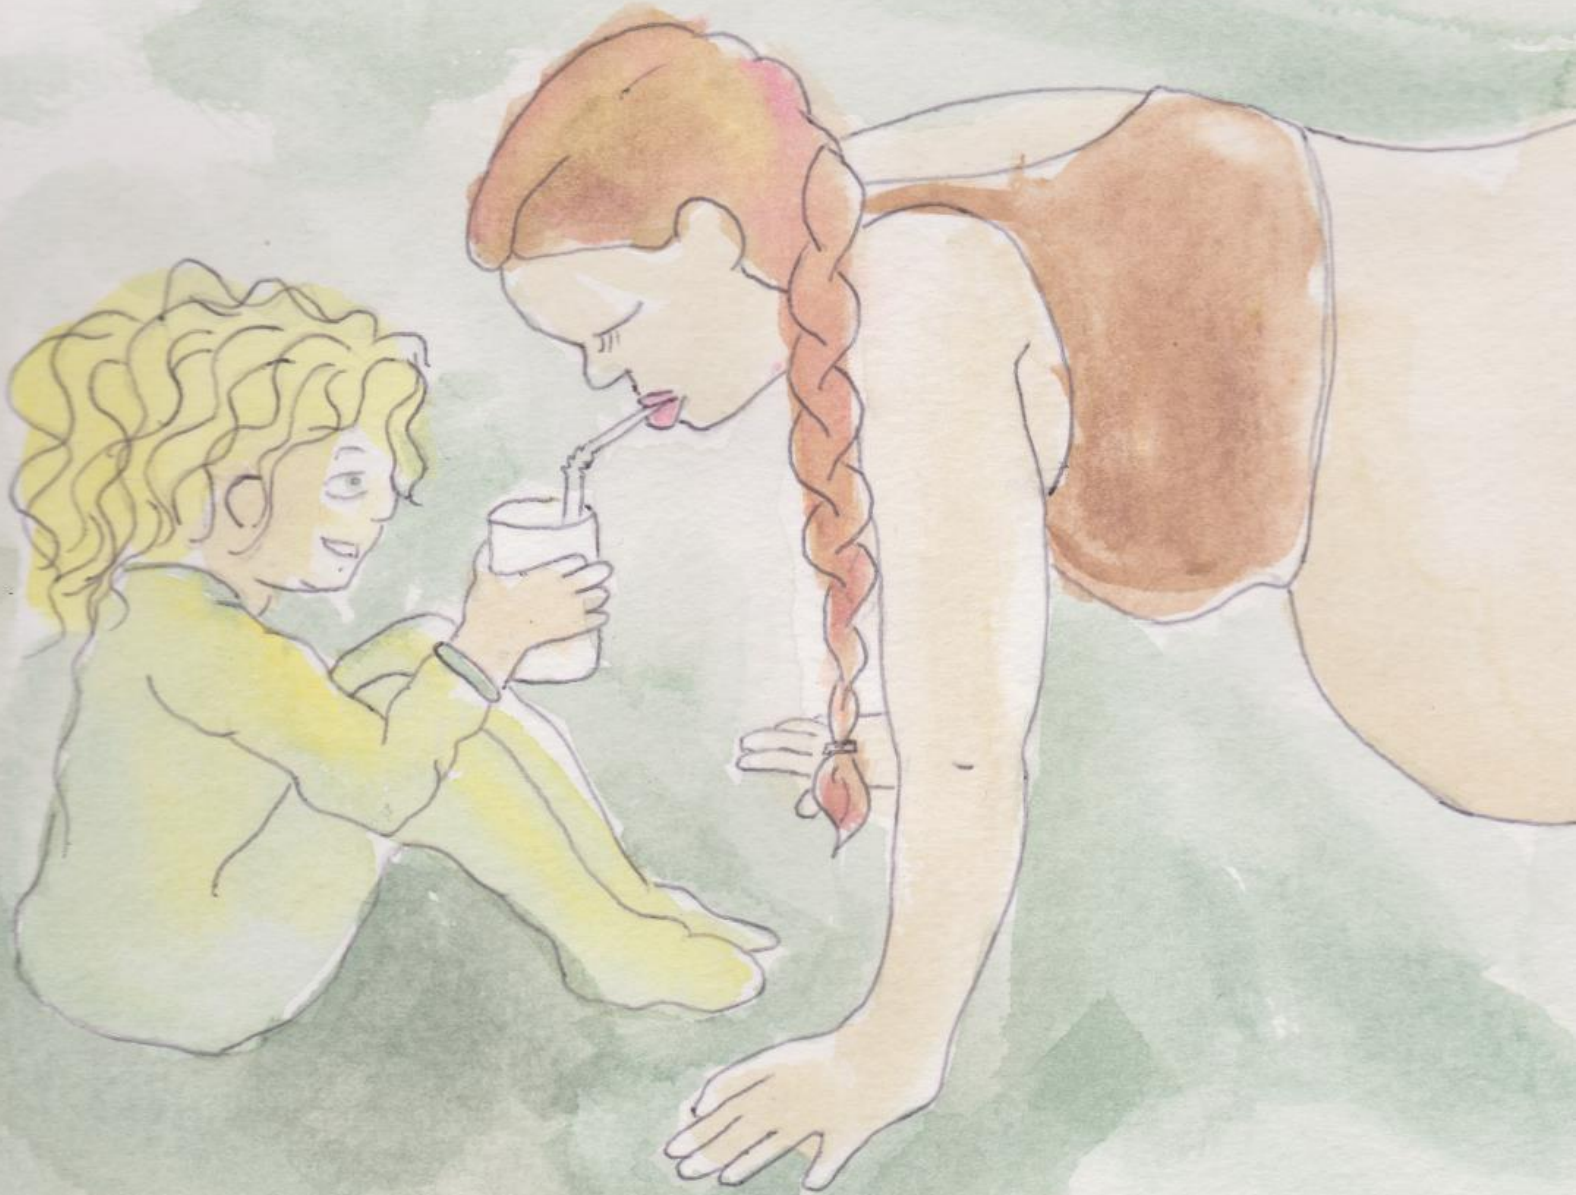

And sometimes
she might
Roar!

Mommy's labor gets

Stronger and stronger...

Until finally it is **T**ime!

Our baby
is born!

At first,
baby is still
connected
to Mommy
by the
Umbilical
cord.

Then our midwife cuts it.
It doesn't hurt baby at all!

I Say
"Hello."
to baby.

Our baby
hears my
Voice
and looks
at me!

Welcome baby!

We are so eXcited
to meet you!

Baby **Y**awns.

Mommy yawns.

I yawn.

ZZZZZZZZZZZZZZZ
